New Lunch Hour Support Group Forming for HIV/AIDS Sufferers

If you or someone you know is struggling with HIV/AIDS, there is a new support group forming to help focus on support and therapy available in the community. To launch the new group, a brown bag lunch will be held on Monday, April 26, from noon to 1:30 p.m. at South Central District Health in Twin Falls. Participants are asked to bring their own lunch, but drinks and dessert will be provided.

The District Health building is located on the CSI campus, and the meeting will be held in the Clark Room near the west entrance. The group will be developing plans for future meetings, and, at this stage, only people who have HIV or AIDS are asked to attend.

Licensed counselor Matthew Geske, L.P.C, will facilitate the sessions. Meetings are planned for once a month through the summer months, and then twice a month beginning next fall.

For more information, contact Mary Sass, HIV/AIDS program coordinator for South Central District Health, at 734-5900 ext. 269, or Matthew Geske at 735-0090.
